

Leica DISTO™ plus

THE ORIGINAL LASER DISTANCEMETER

***Easy, quick and accurate measurements –
with 1.5 mm / 0.06 in accuracy and integrated
BLUETOOTH® technology***

Leica
Geosystems

Leica DISTO™ plus – exceeds your expectations

Quick and efficient

Measure in seconds, save time and money.

Easy to use

The clear keyboard makes it very user-friendly.

Precise and reliable

The most modern measuring technology ensures precise and reliable measurements.

*Your decision to buy a Leica DISTO™ plus optimally prepares you for every application!
The Leica DISTO™ plus is always the right choice!*

- Typical accuracy: $\pm 1.5 \text{ mm}$ ($\pm 0.06 \text{ in}$)
- The latest technology in an elegant design
- Built-in telescopic viewer
- Range: from 0.2 m up to 200 m (0.7 up to 650 ft)
- Measures distances, areas and volumes with a simple key press

Leica DISTO™ plus – opens new dimensions

Creates automatically sketches and transfers wireless values

The Leica DISTO™ plus not only displays measurement values but can also process them (e.g. perform calculations, make out quotations).

Included in the scope of delivery are two free-of-charge software programs. The "PlusDraw" enables simple sketches of the measurement values on a pocket PC. The "PlusXL", enables importing measurement values to an Excel worksheet and editing them on a PC. You will be impressed by how easy the Leica DISTO™ plus, a PDA and a PC work together.

*If you have been marking down your measurement values with pencil and paper, switch to the integrated **BLUETOOTH®** technology, which enables you to transfer your measurement values on-site through wireless data transmission to a PDA (pocket PC) or directly to a laptop.*

Leica DISTO™ plus – impressive all-round

Lisa Miles

(Real estate agent)

"The Leica DISTO™ is child's play to use – it makes taking measurements fun. I also now have more time for my customers. I recommend this instrument to anybody."

Fritz Becker

(Craftsman)

"Since I have been using a Leica DISTO™, I need only half the time for taking measurements. The investment has paid for itself in a very short time."

**Total Quality Management –
is our commitment to total
customer satisfaction.**

The top-model with the integrated BLUETOOTH® and ± 1.5 mm accuracy (± 0.06 in), will please you and your customers: the advantages of the laser measurement technology are obvious.

Tomorrow's technology applied today!

Preparing for the future means:

- Highest accuracy of ± 1.5 mm (± 0.06 in)
- Integrated BLUETOOTH® technology for wireless data transfer
- Modern design and easy handling
